Software Development Experience

Ciox Health

October 2018 – August 2020

Software Engineer

- Developed HTML5 applications primarily using react.js.
- Decomposed UI mockups into reusable react components
- Coordinated with our backend development and UI/UX teams to translate mockups into scalable, best in class web applications.
- Was responsible for all phases of the front-end development lifecycle
- Worked with the Scrum Team to help prioritize and plan upcoming development efforts across cross functional teams.
- Maintained coding standards for all front-end development efforts.

Alias Pay

May 2018 - September 2018

Software Engineer Intern

- Led a small cross-functional team to build a React Native iOS / Android application for peer to peer bank card sharing.
- Implemented pixel perfect UI's that matched designs provided using multiple React Native component libraries (Shoutem, NativeBase, React Native Elements).
- Emphasized clean, modern, smooth animations and transitions to provide an excellent user experience. Also Integrated third-party APIs such as Plaid

Emory Healthcare

May 2017 - September 2017

Web Developer Intern

- Worked closely with Project Managers and other members of the Development Team to both develop detailed specification documents with clear project deliverables and timelines, and to ensure timely completion of deliverables.
- Converted raw images and layouts from graphic designers into CSS/XHTML themes and determined appropriate website architecture.
- Communicated any progress and/or delays with Project Manager weekly.

Consulting Experience

Rower Consulting LLC.

March 2020 – Present

Software Engineering Consultant

- Created a React web application that allowed their data analysts to migrate a Google Sheet survey management process to a full-fledged React app.
- Increased the overall process efficiency by more than 70% utilizing ReactJS, NodeJS and Express.
- Deployed Application via Heroku.

ThinkTink Inc.

June 2017 – August 2017

Software Engineering Consultant

- Created a mobile first web app designed to draw in interested parents. Increased enrollment by 40% and built an email subscriptions form for automated future enrollment.

Leadership and Activities

Georgia State University Office of Institutional Advancement

September 2017 – Present

Student Ambassador Supervisor/Professional Fundraiser

- Rebranded the program to attract more applicants and support across campus. Broke the individual caller record by raising over \$200,000 for Georgia State University during the 2018 school year
